LIKONI AID 4 CHILDREN CENTRE

LAOP VOLUNTEERISM ACTIVITIES PROGRAMMES

We do welcome you to a wonderful charitable programme that ensures your stay and visit instills and allures memorable moments forever in your heart. Sharing of the untold and unseen stories of African orphanages and living their tales, creates a direct connection of family bondage though different in our culture. Through this programme, one learns how to give and gain while partaking charitable activities within the project.

Volunteers & travelers acquire the listed below skills, techniques and benefits:

- i. *Swahili speaking*
- ii. *African bead work-bracelets*
- iii. *Making of African dishes*
- iv. *The henna drawing skills*
- v. *African dances and culture orientation*
- vi. *Psychological healing benefit through playing with children.*
- vii. *Local tours (Bombolulu Cultural, Changamwe & Kambahand craft)*

The major facilitators of these activities are ***the children within our custody, who share their skills and techniques to the guests***; in return they contribute indirectly towards their educational support from the proceeds attained from the activities.

We issue certificates to skills and technical activities at the end of the programme for recognition and appraisal purposes.

The above-mentioned activities are charged at minimal costs as proposed by the management and one must participate in not less than three activities.

The proceeds from these activities are channeled to the educational kitty of the children.

We appreciate your cooperation and participation as we all look forward to a mutually long-lasting relationship and partnership in making this programme a phenomenal success, for the benefit of the children, the caregivers and all our esteemed guests.

For any questions, suggestions or discussions, kindly contact the programme coordinator via:
